For the same reason we intend selling a larger share of the wall paper used this year, and to insure doing so we have put prices on papers that will be sure to attract all careful buyers.

The Stock is Ready.

This big stock is now ready for your inspection, and whether or not you are going to paper this spring, we shall be pleased to have you come in and see the new styles. If you are going to paper bring in the dimensions of your rooms and let us give you some interesting figures.

Alaska has been granted a delegate in congress. There is urgent need that some one who can speak with authority upon the needs of Alaska should be in congress to represent this territory which is developing so rapidly. Not alone on account of the wealth of gold stored within its boundaries, is Alaska of value, but its vast forests and fisheries, coal and minerals are as yet almost untouched.

It costs very little to be kind to people, and kindness does not mean some specific act, but it is the evidence of a pure heart and loving nature that is told by little things that are not counted; the smile, as one is thanked for making room on a car seat, the courteous reply to the questions of strangers, the due consideration for clerks and all who serve in any way; the thought for the comfort of the aged and ailing, and the desire to share all good things with others.

Every once in a while we receive letters containing news items that no doubt would be interesting to our readers, but the failure of the senders to sign their names to the letters makes it impossible for us to publish them. We are always glad to get news items and would be pleased to have them sent by mail or phoned in. But when you write or phone and do not give your name you are simply wasting your time as such messages will receive no attention whatever. We have enough troubles without taking a chance of being placed in a position where we will be asked to explain something we know nothing about.

RECENT DECISIONS.

The postoffice department has decided that children going to and from school shall not be allowed to get their parents' mail, so do not blame the postmaster if your children are refused the mail. The postoffice habit among the children has become a nuisance both to the public and the postmaster, and the department has done wisely in making this decision.

The "opened by mistake" marked on other people's letters taken out of the postoffice, will not go hereafter. You are required, by a ruling of the postoffice department, to look over your mail before leaving the office, and return any letter that may have been put into your box by mistake, under a penalty of two hundred dollars.

Birthday Surprise.

A most enjoyable time was spent at the home of Mr. and Mrs. Eli Silverthorn, two miles north of Yale, last Saturday evening, it being the 63rd birthday of Mr. Silverthorn. At about eight o'clock thirty friends both old and young invaded the home and perpetrated a most complete surprise on the head of the household. Mr. Silverthorn took the surprise very gracefully and the evening was passed pleasantly, his only regret being that he didn't have two instead of one birthday a year. His good wife was the cause of getting together such a gathering of friends and neighbors and to wind up the evening properly a dainty lunch was served at 11:00 o'clock. It was pronounced by all to be a grand success and on leaving the company wished Mr. and Mrs. Silverthorn all manner of good luck through life.
